

[WWW.WMNTMA.ORG](http://WWW.WMNTMA.ORG)

The Western Massachusetts Chapter of the National Tooling and Machining Association is pleased to announce the launching of its new web site. The new web site will facilitate access and communication for Association members, and will create a central point of reference for the region's precision manufacturing companies. The web site will contain:

- Membership News
- Calendar of Events
- Job Postings
- On-Line Job Application
- Labor Market Information and Industry News

A special feature of [www.wmntma.org](http://www.wmntma.org) is the Educational Programs section which focuses on providing information on the precision manufacturing industry to educators, students, and parents. The WMNTMA has developed partnerships with the secondary and post-secondary educational institutions in the Pioneer Valley region, and will be promoting the web site as a destination for educators, students, parents and job seekers.
